Pontiac Firebird

Cars & Concepts Skyline

A roof that has become a tradition in style and craftsmanship

Invite the sky into your car with Skylite, the ultimate roof concept that's become a tradition in style and craftsmanship.

Skylite opens the sky to you sporting state-of-the-art design that's unparalleled, not only in looks, but in technology. Unique among others, the Skylite roof concept offers full glass-to-glass panels* that preserve the graceful roofline of your car, plus allow the maximum roof opening. These optically tinted, lightweight glass panels further add to the distinctiveness of your Skylite, and they control sunlight for carefree comfort. The interior trim is custom-matched to your car's interior to further enhance the integrated look.

Being face to face with the sky is the mere pull of a lever away. Lift off the Skylite panels, slip them into their padded vinyl pouch, and suddenly you experience an enjoyable new driving environment.

*panel panels **See dealer brochure upon request

Skylite maintains the original structural integrity of your car by utilizing a one-piece stamped-steel frame* for necessary bracing strength. Skylite incorporates the most effective water drainage system* available, and with the snug-fitting panels in place and windows up, ensures a watertight, airtight seal. The fact that Skylite has been tested** and meets all applicable Federal motor vehicle safety standards and is offered as original factory equipment, is proof of its excellence in engineering, materials and workmanship.

Owning a Skylite is an experience you can relive for years. And you can start living it today. With a factory trained and backed international dealer network, you can have a Skylite professionally installed on your car that will give you driving pleasure again and again. A 12 month/12,000 mile warranty backs up the quality that's built into every Skylite.

Become a part of your driving environment in a way you've always wanted... invite the sky into your car with a Skylite.
